OF UNITED STATES COINS

It is with a great deal of pride that STACK'S announces the public auction sale of the EMPIRE COLLECTION of United States coins, on November 12, 13, 14, 15, 1957.

Not for many years has such an extensive collection of United States coins been made available to the Numismatic Fraternity, and we are justly proud of the fact that STACK'S has been selected as the auctioneers of this famed collection. Assembled by a renowned numismatist, the EMPIRE COLLECTION was begun in 1886. However, the modesty of the gentleman precludes the use of his name in connection with it.

For several years there has been a lack of truly fine collections offered at public auction. Not since Davis Graves, Anderson Dupont, Farish Baldenhofer or the other outstanding collections which STACK'S has sold in recent years; has there been offered such an extensive, complete United States collection of coins. A glance through the following pages will quickly give you some concept of the tremendous number of rarities which this exceptional group contains.

* * *

A word of appreciation to the numismatist and fine gentleman who made this sale possible.

We at STACK'S are grateful for the many pleasureable hours spent with him over the years and for the opportunity of helping to form this outstanding collection.

You, the collector, will appreciate his care and diligence in assembling the EMPIRE COLLECTION, and derive comparable pleasure from the possession of any of these coins.

35.00	182	1809 S-280. Another dull natural light brown obverse Very Fine-20, reverse Very Fine-30. Either of these 1809's' could hold their own in any collection.
2.00	183	1810. S-281. Overdate. Dull dark brown, rough and pitted, unevenly struck off center to the left. Good-6.
5.00	184	1810 S-282. Perfect Date. Dark gray steel, a few small scratches and corrosion pits. Fine-15.
27.00	185	1811 S-286. Overdate. A well struck, medium steel brown Fine-15.
4.00	186	1811 S-286. Another, worn dark olive, about Good-6, but the obverse severely gouged from upper rim to TY and ninth star.

360.00	187	1811 S-287. Perfect date. Mint State-60, one of some seven or eight known to exist. Such examples, however, are jealously hoarded and rarely sold at public auction. This one is struck slightly off center to the upper left, no radial lines visible in any of the left stars, UNITED a trifle weak in corresponding area on reverse. Otherwise the piece is clear and bold, the obverse toned mostly to a natural medium brown but with considerable mint red remaining around the date, right stars and top hair. The reverse is almost wholly mint red, with a pronounced "cartwheel" effect when slowly turned under the light. A superb, practically flawless specimen, of excessive rarity in such preservation, and likely to induce "runaway" bidding. But those who toss the reins aside will have realized that a coin like this cannot be valued in terms of money alone.
17.00	188	1812 S-288. Large Date. Lustrous light chocolate, sharp strike. Very Fine-35.
7.00	189	1812 S-290. Small date. Medium brown, Very Fine-30, but rim badly gouged over first A of AMERICA.

20.00	191	1813 S-293. Close Star. Lustrous olive steel, an attractive Very Fine-25.
7.50	192	1814-S-294. Plain 4. Of Extremely Fine-40 sharpness, but scraped, recolored, and with initials W. H. H. crudely etched between ONE and CENT.
20.00	193	1814 S-295. Crosslet 4. Extremely Fine-40, steel brown, the reverse with dark red mottlings. Well struck and centered, an excellent example of the turban head type. Early obverse die state, no breaks or crumbling.

14.00	214	1820 N-15. Another, mostly mint red, but with more carbon stains and not as sharply struck or in as full brilliance. The obverse better centered, however, and a strong MS-60.

620 1795. Very Fine, slight nick on edge over "R" of LIBERTY, which does not detract from the over-all appearance of the coin.

175.00 621 1796. Perfect date. About Uncirculated with light golden toning. A choice example of a "type coin". Almost a perfect strike and seldom exceeded in condition when offered for sale.

39.00 622 1797. 13 Star Variety. Good, the reverse is a bit sharper than the obverse. Almost all devices are visible. Should bring \$35.00.

130.00 623 1797. 15 Star Variety. A deeply toned iridescent specimen, with highlights of red showing through the royal blue background. Well struck around outer borders, with typical weakness near center of coin on both obverse and reverse. A shade from Uncirculated and a very desirable specimen.

140.00 624 1797. 16 Star. Lustrous, iridescent specimen, two planchet flaws appear on obverse edge; one above BE in LIBERTY and second above the 11th and 12th star. Two die flaws evident from top of bust into field. No doubt a very late strike from "over worked" dies. An uncirculated specimen, worth over \$200.00.

92.50 625 1800. Perfect R in LIBERTY. A steel gray evenly toned specimen, almost perfectly centered, and very well struck. Extremely Fine, choice.

35.00 626 1800 LIBEKTY. Lightly toned on edges. Two small dents in field also the coin has the appearance of having been bent, then straightened. Fine to Very Fine.

35.00 627 1801. Usual weak strike. All lettering and devices clear. Very Good, sharp. Worthy of a \$75.00 bid.

THE EXCESSIVELY RARE 1802 HALF DIME

Prices
Realized
2300.00

628 **1802 Half Dime.** The rarest half dime in the series and unquestionably one of the outstanding rarities in all Silver coinage. This coin is no doubt one of the finest known and surpasses the few specimens we have had the pleasure of offering for sale in the past two decades. The Dupont specimen was Extremely Fine but did not have the sharpness of strike, and fullness of detail of this specimen. The Dupont coin realized \$1025.00 three years ago. It is interesting to note that the appreciation of rarities such as this has grown in recent years for in our Lohr sale of October 1956 a Very Fine specimen sold for \$950.00! In checking back over the catalogues of other dealers, we find the Parmelee-Smith-Dunham-Neil specimen which B. Max Mehl sold in 1947 is the nearest rival to this coin. Comparing this coin with the enlarged illustration supplied by Mr. Mehl in the catalogs aforementioned, we are convinced that though both coins are about equal, this specimen is a sharper strike especially on the reverse.

This specimen, Extremely Fine, has the usual weakness in strike on the left near the stars, typical of all existing specimens of this date. (A similar characteristic is observed on some of the 1794 Dollars.). Exceptionally well struck on bust and right side of obverse, with a very bold date. The reverse is almost perfectly centered and most fine detail clearly evident but 2 or 3 stars are weak, as usual. There is a minute, pinpoint planchet imperfection in obverse field below the chin, hardly worthy of mention. This coin, considering those that have been offered for sale throughout the country for the past 50 years, is unquestionably one of the finest known examples of the great rarity. In our estimation, this coin is worth upwards of \$2000.00.

210.00	629	1803. Lustrous, iridescent toning, on an unusually well centered planchet. Boldly struck, with most of the serrated borders clearly evident. Extremely Fine, choice, and very rare in this condition.
169.00	630	1805. The second rarest date in this series. Seldom seen better than Fine. Unusual bold strike, and can be classed as about Extremely Fine. Worthy of a handsome bid.
92.50	631	1805. Fine. It is quite rare to find two specimens of this rare date offered in one sale. A clear, well struck coin, which should entice the collectors and lead to spirited bidding.

BUST AND LIBERTY SEATED HALF DIMES

Cataloguers note: :In our recent O. E. Futter sale of May 1957, we remarked that the following group of coins "are grossly under priced in catalogues, for truly Uncirculated specimens of many dates nearly impossible to find". This was proven to be true, and the prices realized for the supposed "common" half dimes fetched 2 to 3 times catalogue at the Futter sale. Interested bidders should keep this in mind when bidding on this group of coins.

THE VERY RARE 1894 'S' DIME

Prices
Realized
4750.00

- 881 1894 'S'. Dime. The second rarest silver coin from the San Francisco Mint, exceeded only by the 1870 'S' Dollar (which appears later in this sale) of which 6 or 7 are known to exist. The 1894 'S' Dime of which 7 or 8 are known, Stack's has had the pleasure of handling 5! At private sale we sold the Clapp specimen to Louis Eliasberg, another to James Stack. At auction we sold the H. R. Lee specimen 1947, the Guggenheimer coin in 1953 and now we proudly offer this, the fifth specimen, in this great Empire Collection. Only when great and virtually complete collections are sold does the collecting fraternity have a chance to own or to see such a rarity as this. To emphasize the rarity of this coin, even the great Anderson Dupont sale which we sold in 1954, considered one of the finest and most complete offerings of silver and copper coins in the last decade lacked this coin. **All specimens known are in proof condition.** (No doubt these were presentation pieces). **This specimen is a beautiful Proof** with light lilac and gray over toning on a lustrous golden surface. Lightly struck on the lower right leaf of the left branch of wreath. The entire coin otherwise is boldly struck.

It is a difficult problem to determine the value of this piece because as we've mentioned earlier this is the first specimen to be auctioned in nearly five years, and we do not know of any private sale records. Therefore we can only go on past performances of the 1894 'S' Dime in comparison with other rarities and we unhesitatingly value this important piece of American Numismatics at \$5000.00.

THE EXCESSIVELY RARE 1876 'CC' TWENTY CENT PIECE

Prices

3800.00

- 995 **1876 'CC'.** The second rarest coin from the Carson City Mint. It is only exceeded in rarity by the 1873 "CC" Dime without arrows. This is one of the most popular and sought after rarities of the U. S. Series as it is required to complete the shortest series of U. S. Coins. This specimen, undoubtedly one of the "Finest Known" is a Brilliant Uncirculated Gem, with proof-like surface.

The reputed origin of the twenty-cent piece is a colorful sidelight on the sale of this great rarity. Back in the boom days of the western silver mining towns a belt of booze was nominally priced at 12½ cents but would be sold for a dime to anybody who had one. This was strictly a gimmick, as dimes were in short supply and local barkeeps would return only 10 cents on the quarter and 35 cents on the half dollar when a snort was purchased. Feeling among the miners ran high at this profit on the "breakage", and Senator John Percival Jones, the self-styled "Miners' friend", finally managed to put through a bill for coinage of a twenty-cent piece. Everybody was happy—the miners because the hated hidden tax was done away with, Senator Jones because he got their votes, and the bartenders and saloon keepers because the miners drank more than ever to celebrate!

STACK'S has been fortunate in having been able to offer through the medium of Public Auction two specimens in less than one year! Rarely does a dealer have an opportunity to handle one in the span of 10 years. The other specimen, sold in the B. Frank Sale in November 1956 was Extremely Fine with signs of mishandling and realized \$3300! It is our considered opinion, that this Gem Uncirculated Coin should realize \$5000 or more.

Prices Realized U. S. TWENTY CENT PIECES — QUARTER DOLLARS

- 155.00** 996 1877. Brilliant Proof. Rare. Currently brings about \$200.00.
- 110.00** 997 1878. Brilliant Proof. Choice. Worth \$125.00.

UNITED STATES QUARTERS

- 570.00** 998 1796. The first year of Issue and the only year of its type. This specimen is a well balanced Very Fine with a wide border. There is a slight planchet defect on edge near the sixth star. Beautifully toned and should realize \$750 as uncirculated specimens have brought as high as \$1600.

THE VERY RARE 1804 UNCIRCULATED QUARTER

- 550.00** 999 1804. The second year of Issue and the first year of this type. The same obverse as the 1796 but with the Heraldic Eagle reverse. This coin is a superbly toned iridescent specimen. Uncirculated with some very light die adjustment marks on the obverse milling over 'Liberty' and near the second and third star, which in no way impairs the beauty or importance of this coin. The coin is rare as a date but in this state of preservation almost unobtainable. This is borne out by the fact that in most of the large collections sold such as the Worlds Greatest, Atwater and Dupont and going back to the Parmelee and Ten Eyck Sale, all they could offer were circulated specimens. It is our opinion that a coin as rare as this should bring \$1,000.
- 51.00** 1000 1804. Strictly fine and sharp even wear with a remarkable clean surface. Easily a \$75.00 coin.
- 40.00** 1001 1805. Very Fine. A nice example of this type coin.
- 82.50** 1002 1806/5. Just a shade from uncirculated with full mint luster. Just the slightest bit of cabinet friction on high points takes it out of the Uncirculated class. Definitely a premium coin.
- 125.00** 1003 1806. A splendid Uncirculated coin, with a beautiful blue toning around edges. Full luster. A very scarce coin in this condition.
- 20.00** 1004 1806. Strictly fine and sharp.
- 31.00** 1005 1807. Very Fine.

900.00	1175	1901 'S'. A perfect Brilliant Uncirculated Gem. It is always included in the outstanding rarities of the Quarter Dollar series. Rare in any condition, excessively rare in Uncirculated Gem condition. To fully understand and appreciate this rarity one should examine the important sales catalogues of the past. Rarely has this coin appeared for sale in this condition. B. Max Mehl, when describing this coin in the Dunham sale in 1941 and the Atwater sale in 1946, called it the "Rarest branch mint Quarter Dollar". In our opinion it is one of the rarest branch mint quarters and truly deserving of a premium price. We would not be surprised if this specimen realizes over \$900.00.

1794 HALF DOLLAR

700.00	1264	1794. First year of Issue. This specimen is a richly toned, iridescent Uncirculated coin. Usual flatness on reverse at eagle's breast as made. The wings, however, are unusually bold. Obverse struck slightly off-center with evidence of adjustment marks on the right edge. Reverse, perfectly centered with all denticles sharp. A similar specimen in the T. James Clarke sale in 1956 realized \$1000.00 after very spirited bidding. It should be interesting to watch the bidding on this coin.
52.50	1265	1795. Two leaf variety. Strictly Very Fine, with blue and gold toning.

RARE 1795 THREE LEAF VARIETY

Prices
Realized
250.00

- 1266 **1795. 3 Leaf variety.** Strictly Fine. Reverse has usual die break from S of STATES through wing and breast of eagle. For some unexplainable reason practically all specimens known are in no better condition. Also it is interesting to note that fewer examples of these coins are offered than either the 1796 or 1797. The Dupont specimen in similar condition realized \$275.00. The Davis specimen which was slightly superior realized \$400.00.

EXCESSIVELY RARE 1796-16 STAR VARIETY-HALF DOLLAR

- 875.00 1267 **1796. 16 Star variety.** Lacking in many collections and far rarer than the 15 star variety. Strictly Very Fine and sharp, with some mint lustre faintly evident around stars and letters. Iridescent toning. Well centered. The Dupont specimen which was not quite as sharp as this realized \$925.00. This specimen should top \$1000.00.

VERY RARE 1796 — 15 STAR HALF DOLLAR

- 370.00 1268 **1796. 15 Star variety.** Strictly Fine and choice, but the coin was skillfully plugged below the base of the bust. So skillful was the plugging that it almost escapes detection. A wonderful opportunity to add a rare type coin to your collection.

VERY RARE 1797 HALF DOLLAR

- 600.00 1269 **1797.** A most difficult coin to obtain as it is in demand by both the date and type collector. Strictly Very Fine. Stars at right weaker than those at left. Reverse showing a myriad of die breaks, which is peculiar to this coin. Very high auction records.

Reverse relatively free of abrasions. Struck as a presentation piece as an example of the coining process newly installed in the New Orleans mint in 1838. This coin ranks with all the outstanding rarities in American Numismatics. Since 1940 this is the fifth time we have been privileged to handle the 1838 'O'. We handled the Clapp-Eliasberg specimen, the Guggenheimer specimen, the Dupont specimen, the Farish-Baldenhofer and now the Empire specimen. Our sales described above account for practically all known specimens! At the recent A. N. A. Sale, August 1957, we purchased for one of our clients the Dupont specimen for \$4450.00. This is a good guide for interested bidders.

THE EXCESSIVELY RARE 1847 OVER FULL 1846

Prices

925.00

1379 **1847 over 1846.** The 1846 appears to the left and below the 1847 date. Proof condition. This is the Dupont specimen which was cataloged possibly **UNIQUE** in this condition. Sharply defined stars on obverse, deeply serrated borders, square edge. Reverse sharply struck with field somewhat satinlike. Unquestionably the finest known. Realized \$1000.00 at the Dupont sale when its rarity for type and condition was not fully appreciated. Amazing as it may sound, more 1804 Dollars have appeared than this coin. Excessively rare and could readily bring a run-a-way price.

U. S. HALF DOLLARS

THE EXCESSIVELY RARE 1853 'O'. NO ARROWS OR RAYS.

1394 **1853 'O'. No arrows or rays.** This is the rarest silver coin of the New Orleans Mint. Also this is the only specimen available at this time. The other known piece is in the Eliasberg collection which was purchased by us for his account at the Menjou sale in 1950. The coin we are now offering is the famous Dupont specimen.

In the year 1853 the par value of silver surpassed that of gold. Silver was purchased at a premium and exported at a profit. Finding that the country was rapidly becoming drained of its silver coin and bullion, the government while retaining the old weight for standard dollars, reduced the weight of all its minor silver coinage. The half dollar was reduced from $206\frac{1}{4}$ grains .900 fine to 192 grains .900 fine, in conformity with the Act of February 21, 1853. The government indicated the change by putting an arrowhead before and after the date. This specimen weighs 199.6 grains. The difference from 206 grains, the earliest standard weight, to 199.6 is easily accounted for by the advanced state of wear. This weight factor conclusively proves the genuineness of this coin.

This specimen, which is in fine condition, realized \$3000.00 in the Dupont sale in 1954. As it is the only specimen available and definitely far rarer than the 1804 Dollar, 1838 'O' Half Dollar, 1876 'CC' 20 cent piece and a host of others which have realized far in excess of the Dupont price, it is our opinion that this coin will find its proper place in American Numismatic rarities and will bring more than its record of \$3000.00.

THE EXCESSIVELY RARE 1892 MICROSCOPIC 'O'.

650.00	1487	1892 'O'. Microscopic 'O'. This is only the second specimen we have handled in over 25 years. It was lacking in all of the great sales we have held. This coin is particularly rare because of its choice gem Uncirculated condition with a Proof like surface. A specimen which we sold about 15 years ago realized \$350.00. The collector must disregard the catalog which lists it today at \$125.00. In our opinion its real value would be closer to \$500.00 or even more.

U. S. SILVER DOLLARS

1794 SILVER DOLLAR

One of the finest specimens known. This coin is the Atwater specimen sold in 1946. Because this coin was so ably described by B. Max Mehl we are taking the liberty of using his description as it appeared in that sale's catalogue.

- 1678 **1794.** Obverse, Bust of Liberty to right, with loose flowing hair hanging on neck; 15 stars, 7 to right and 8 to left of bust. LIBERTY above, date below. Reverse, small eagle with wings displayed, the head turned to right, standing upon a rock; the whole within olive wreath. Legend, UNITED STATES OF AMERICA. Edge lettered HUNDRED CENTS ONE DOLLAR OR UNIT. Uncirculated; just the barest touch of cabinet friction, with frosty mint lustre. Perfectly centered, and what is most important, an unusually bold impression. Undoubtedly one of the earliest impressions of the die. As is well known, all of the 1794 Dollars have the stars on left not struck up. They are usually flat. But on this specimen they are rather bold. I do not claim that this beautiful 1794 Dollar is the "finest known", but it is the finest that has ever passed through my hands in my more than 45 years of numismatic experience. Besides the remarkably choice condition of this coin, it has an equally remarkably pedigree. This specimen was formerly in such great collections as the Col. Ellsworth, George H. Earle, and Murdoch Collection of London, England. In the Earle sale, held by Henry Chapman in June 1912, this dollar was described as follows:

"Lot 2667. 1794 Finest specimen known! Sharp, bold, even impression. Date and LIBERTY sharp. Milling sharp and even. Reverse, sharp and even, showing the feathers on eagle's breast. Slight hairmarks in field. Light charcoal driftmark in planchet from the edge at first star in a circle embracing first and second stars on the edge. This superb coin I bought at the sale of the Murdoch in London, July 30th, 1903, Lot 835. It surpasses in every way any other example. Of excessive rarity."

Unknown until 1956, another specimen of this quality came to light. It appeared in the A. N. A. Convention Sale of August 1956. We were fortunate in purchasing that specimen for one of our clients for \$8,000.00. These opportunities, as you can readily see, happen once in a lifetime. With the growing interest in early Americana, it is our opinion that a coin of this calibre will bring a record price.

THE VERY RARE 1800 B.3. DOLLAR

70.00	1709	1800. B. 3. An excessively rare variety according to Bolender. It is interesting to note that Haseltine had a Very Fair coin. Bolender did not locate one until 1949. Flying eagle to left, amid 26 stars, denoting the number of states in the Union at that time. Plain edge. Only 18 specimens struck, all in Proof Condition. This specimen, a superb Brilliant Proof, and a joy to behold! It catalogues at \$550.00, however we feel that because of the magnificent state of preservation that this coin should bring closer to \$850.00. |
| 425.00 | 1719 | 1836. Gobrecht Dollar. Name on base. Flying eagle in field of stars. Plain edge. The commonly seen variety and the most popular for the type collector. A beautiful blue Proof with some cabinet friction in the right field. Currently a \$450.00 coin. |

| 350.00 | 1722 | 1840. First year of issue of the new design. Liberty seated with drapery from elbow. Reverse. Displayed eagle. Only about 10 specimens are known. Ten years ago the coin brought double catalog. This specimen, a Brilliant Proof with light toning about the edges. Has a tiny spot near the 9th star and on reverse a planchet imperfection caused by either lint or dirt in the die, still a magnificent coin. |
| 37.50 | 1723 | 1841. Brilliant semi-Proof with full Proof surface but lacks the square edge and sharp stars usually associated with these early Proof dollars. A Premium Coin! |
| 22.00 | 1724 | 1842. Brilliant Uncirculated, with Proof surface. Edge dent on reverse. |

- | | | |

| 290.00 | 1727 | 1845. Brilliant iridescent Proof , with a complete wire edge on obverse and most of reverse. This is the Extremely Rare variety with the 84 of date recut. Unlisted in standard reference books. In 1950 a similar specimen realized \$142.50, easily worth double that today. |
| 16.00 | 1728 | 1846. Perfect date. Extremely Fine. |

THE VERY RARE 1846 REENGRAVED DATE

- | | | |
|--------|------|--|
| 550.00 | 1729 | 1846. The so-called 1846 over 44 or reengraved date . Brilliant iridescent Proof. Considered excessively rare in the Parmalee sale. Realized \$210.00 in 1950 and a similar specimen realized \$400.00 in our May 1957 sale. With the appreciation of early Proof Dollars this coin might easily top the \$400.00 figure. |
| 25.00 | 1730 | 1846 'O'. Extremely Fine. |

RARE 1847 PROOF DOLLAR

- | | | |
|--------|------|---|
| 440.00 | 1731 | 1847. Brilliant iridescent Proof . A complete wide edge on the obverse. We doubt that more than 10 specimens exist of any Proof Dollar from 1840 to 1854. The catalogues are consistently undervaluing this series of Proofs for some unexplained reason. In 1950, in the Golden Jubilee Sale a similar specimen realized \$140.00 and the present Guidebook of 1958 values this piece at a mere \$130.00. It is our opinion that this coin should easily sell for \$300.00. |

RARE 1848 PROOF DOLLAR

- 300.00** 1732 **1848.** Brilliant iridescent Proof. Heavy wire edge on obverse. Eight years ago a similar specimen realized \$175.00. In today's market this coin is easily worth double the price of that time. All Proofs from 1840 to 1850 appear less frequently in sales than do the higher priced 1851 and 1852.
- 55.00** 1733 **1848.** Possibly purchased as a Proof. In our opinion a "First Strike". A choice Uncirculated coin.

RARE 1850 PROOF DOLLAR

- 260.00** 1734 **1850.** Superb, iridescent Brilliant Proof. Has a tiny pinpoint planchet imperfection near knee on obverse. Catalogues in 1958 Guidebook at a ridiculous \$190.00 and yet 8 years ago \$235 was paid for a similar specimen. At that time the 1851 realized \$265.00. Keeping this in mind isn't this actually worth the \$550.00 that an 1851 brings?
- 165.00** 1735 **1850 'O'.** Extremely Fine. Choice.

RARE 1851 DOLLAR

- 525.00** 1736 **1851. Original.** High date. Brilliant Uncirculated with some proof surface and a partial wire edge. Much rarer than the Proof. The Proof in our May 1957 Sale realized \$600.00, and we feel that this specimen should realize in excess of the aforementioned figure.

RARE 1852 PROOF DOLLAR

- 460.00** 1737 **1852. Superb Brilliant Proof.** An Uncirculated specimen in our May 1957 Sale realized \$750.00. Though the Proof is not as rare as the Uncirculated specimens we feel that this coin could realize almost as much as the record quoted above.

THE EXCESSIVELY RARE 1853 PROOF DOLLAR

Prices
Realized
825.00

1738 **1853. Brilliant Proof.** Superb, with almost flawless surface. Rainbow hues just starting in field add to the overall beauty of this great rarity. Only 12 Pieces struck! A description of a similar specimen in the Evans-Eliasberg Collection, June 1957, related "Of the dozen Proofs struck, we sincerely doubt that half that number now exist." We sold a specimen in the McPherson sale in 1953, and this coin is the second one we have handled. To give the collector an idea of the rarity of the 1853 Proof dollar, we should point out that we have handled as many as 3 or 4 specimens of many of the other known rarities, but this is only the second coin of this type. The coin in the Evans-Eliasberg Sale realized \$1000.00. This specimen will no doubt equal or surpass the recent record price.

RARE 1854 PROOF DOLLAR

300.00

1739 **1854. Brilliant Proof,** beautiful iridescent toning. This coin catalogues at \$160.00, but interested bidders should be aware that this valuation is low as there are few pieces available. A bid of \$350.00 would be nearer its true value.

RARE 1855 PROOF DOLLAR

300.00

1740 **1855. Brilliant Proof,** just turning a light purple. Has a slight planchet imperfection on edge, otherwise a magnificent specimen. With many Proof coin collectors attempting to complete the series from 1855 to date, we would not be surprised if very enthusiastic bidding ensues.

RARE 1856 PROOF DOLLAR

330.00

1741 **1856. Brilliant Proof,** purple iridescence. Another one of the early dollars many are trying to acquire for their Proof sets. Has consistently realized over catalog.

U. S. SILVER DOLLARS

RARE 1870 'S' SILVER DOLLAR

Prices
Realized
1300.00

1759 **1870 'S'**. One of the rarest coins in the entire U. S. series. This is the Hesslein-World's Greatest Collection-Skinner specimen. This coin is a Very Fine specimen, but at one time initials or scratches or some sort of roughness was in the obverse field. Unfortunately some unskilled hand attempted to remove the impairment in the field, leaving the coin with definite signs of re-tooling. The reverse is perfect except for a very minor edge nick. Only 6 or 7 are known to exist; this fact places this coin in the class of the 1804 Dollar, 1838 'O' Half Dollar etc. In the World's Greatest Collection Auction this coin realized \$1,650.00. We sincerely believe that this coin is worth more, as the price was established in 1945.
